WORK EXPERIENCE

Capgemini Technology Services India Ltd., Bengaluru as Senior Consultant | Project Lead in Front-End Design (19-Feb-2018 to **till date**)
Currently working for Microsoft Azure HPC client. I am involved in the end to end execution of the GitHub promotion site. Also find below my roles and responsibilities in the current project:

Various Projects handled within Capgemini

1. Type of Industry: Finance (Microsoft)

Project Description: Recreate an all new UX Design for the existing reporting website. Modernization of Data Visualization at every aspect.

Role/Title: Lead - UX Designer

Project Duration: Apr 2022 – Till Date

Responsibilities:

- ➔ Working with the customer for initial requirements
- ➔ Conduct competitive analyses of other websites that operate in the same space
- ➔ Prepare and present rough drafts to internal teams and key stakeholders
- ➔ Develop quick mockups for our development and design team
- ➔ Track usability goals and prepare reports for senior management
- ➔ Coordinate with UI design team

Operating Systems/ Software / Languages: Windows, SharePoint, HTML 5, CSS3, Adobe Illustrator, Adobe Photoshop, Pixlr (Online Graphic Editor)

Special Tools: Wireframing & UI Design (Figma)

2. Type of Industry: Microsoft Azure Technology (Microsoft)

Project Description: Creation of a static Landing Page which promotes different ISVs of the Microsoft Azure Platform Model. The major task is to convert the normal Word Documentations to creative & interactive HTML Pages.

Role/Title: Module Lead, UI/UX Designer, Word expert (HTML/CSS/Word)

Project Duration: Nov 2021 – Till Date

Responsibilities:

- ➔ Creation of quick Landing pages for GitHub
- ➔ Worked on Mobile First Bootstrap Layouts for UI Design.
- ➔ Provide support to the customer during UAT and post production support as part of maintenance
- ➔ Handling Wireframes/Prototypes for the proposed UIs.
- ➔ Worked on Images and Icon creation wherever required to customize the Landing page.
- ➔ Worked on CSS Framework (Bootstrap 4/5) and HTML5 /CSS3
- ➔ Rapid conversion of Word Document to HTML pages in modern UI format.

Operating Systems/ Software / Languages: Windows, SharePoint, HTML 5, CSS3, Adobe Illustrator, Adobe Photoshop, Pixlr (Online Graphic Editor)

Special Tools: Wireframing & UI Design (Figma)

3. Type of Industry: Learning & Development

Project Description: Creation of a completely new UI for an existing internal webpage in terms of Learning & Development. This Project gives the End User a completely new look & feel of the functionalities related to the Skills, Learnings & Certifications related to the Employees within the Organization Globally according to their Grades & Roles.

Role/Title: Project Manager / UI/UX Designer (SharePoint Platform - Capgemini)

Project Duration: July 2021 – Nov 2021

Responsibilities: End-to-end Project Management as a Scrum Master. Handled the entire project from start to finish (including the Stakeholders requirements to delivery). Along with the Project deliverables, I have taken up the UI Designer role in the project (Complete UI Layout design of the project).

- ➔ Creating project UI Layout for further SharePoint Development
- ➔ Project Goal setting | Tracking | Timelines
