-

PROFESSIONAL EXPERIENCE

Aon Consulting Pvt. Ltd. – Senior Consultant | Lead UI/UX Designer

Oct 2022 – Present

- **Developed** an end-to-end design-to-development pipeline for **ELEMENTS** software modelling tool, utilizing Adobe XD to create high-fidelity prototypes that reduced development friction.
- **Lead** the UX review process for the **Impact Forecasting Toolkit**, mentoring a team of designers to ensure interaction consistency across risk mapping modules.
- **Directed** the annual UI/UX strategy for the **US Florida Loss Commission (FLC)** review, presenting interactive flow prototypes to facilitate regulatory approval.
- **Conducted** the Product Feature Testing and Creative Reporting with latest AI Presentation.

Capgemini Technology Services – Project Lead | Senior Consultant

Feb 2018 – Oct 2022

- **Lead UX Designer (Finance - Microsoft):** Architected a UX modernization strategy for a global reporting platform, transitioning legacy data into intuitive **Data Visualizations**.

- **Module Lead (Azure Tech - Microsoft):** Optimized the conversion of technical documentation into interactive GitHub landing pages using **Bootstrap 5** and Mobile-First principles.
- **Scrum Master (L&D Platform):** Directed the project lifecycle for a global internal skills-tracking platform on Microsoft SharePoint, managing sprints and DevOps documentation.
- **Front-End Lead (Healthcare - AtriCure):** Achieved **95% On-Time Delivery** for 200+ User Stories, managing sub-projects via WordPress and Drupal.

Zopsmart Technology Pvt. Ltd., (zopnow) – Sr. Graphic Designer (Digital Marketing & Design)

Oct 2014 – Jul 2017

- **Managed and trained junior designers** in advanced photo editing and print/social media best practices.
- **Streamlined the production of multi-channel content**, including E-Magazines and offline print media.
- **Directed the end-to-end design lifecycle** for major marketing campaigns and digital blogs.
- **Expertise in image editing and storytelling** for blogs and social media content.
- **Established and enforced Brand Standards** to ensure a unified identity across all physical and digital touchpoints.
- **Owned the 360° visual narrative**, from digital banners and mailers to print magazines and flex hoardings.

Suksh Technology Pvt. Ltd., – Sr. Graphic/Web Designer

Jun 2012 – Apr 2014

- **E-Commerce Strategy:** Led the design evolution of the company's core e-commerce platform, focusing on user engagement and conversion-centric layouts.
- **Team Leadership:** Headed a dedicated design team, overseeing the end-to-end execution of high-traffic promotions and seasonal campaigns.
- **Corporate Communication:** Crafted high-impact **PowerPoint presentations** for internal stakeholders and external partners, translating complex data into visual stories.
- **Digital Marketing Mastery:** Directed the visual strategy for **Google Ads**, interactive **Flash Ads**, and high-volume email marketing flows.
- **Cross-Platform Design:** Managed a diverse portfolio of assets, from granular website UI components to broad digital advertising banners.

Kairos Multimedia Pvt. Ltd., – Head-Web Designing

Apr 2011 – Mar 2012

- **Global Team Leadership:** Managed cross-functional teams of web designers across diverse overseas projects, ensuring high-quality delivery under tight deadlines.
- **End-to-End Client Ownership:** Served as the primary point of contact for international clients, leading the entire design lifecycle from initial **data collection** to final hand-off.
- **Strategic Collaboration:** Facilitated comprehensive **Website Reviews** and stakeholder feedback sessions to align design outputs with global business goals.

- **Executive Communication:** Developed high-stakes **PowerPoint and Flash presentations** to pitch design concepts and report project milestones to global leadership.
- **Feedback Integration:** Streamlined the **client feedback loop**, translating complex technical requirements into actionable design tasks for the production team.

The Good Samaritans (NGO) – SW Programmer/HR Assistant

Nov 2004 – Apr 2006

- **Software Development:** Initiated career as a Software Programmer, developing custom Employee Registration and HR Management systems from the ground up.
- **Cross-Functional Impact:** Balanced a dual role, managing both technical software architecture and core **HR functionalities**, providing a 360-degree view of organizational operations.
- **Internal Tooling:** Designed and built internal software solutions to automate manual HR processes, improving data accuracy and administrative efficiency.
